There is a girl named Hazel, and she has problems with her lungs. Her mom makes her go to support group; one day there is a new guy staring at her. His name is Augustus. Hazel and Augustus start hanging out. Hazel makes him read one of her favorite books, An Imperial Affliction. He reads it and loves it. One day Augustus surprises Hazel with a picnic where he tells her that with his wish (Make A Wish Foundation) that he is going to take her to meet the author of the book, Peter Van Houten. Right before they go, Hazel ends up in the ICU. After she gets better, she is approved to go on the trip. Once she gets there they have one day before they meet Peter, so Hazel and Augustus go to a restaurant. When they get to Peter's house he goes crazy and the kids find out he is an alcoholic and it doesn't go too well. They go to Anne Frank's house, where they kiss for the first time. Augustus tells Hazel that he has cancer, and shortly after, the two struggle with fate. Hazel then learns that Augustus has something very special for her.
