Sixteen year old orphan Jennifer Strange works as a manager for Kazam Mystical Arts Management, the top provider of magical help in the world. She has already saved dragons from extinction and an apocalyptic Quarkbeast explosion. But now she must find the Eye of Zoltar - a magical relic that gives the user great power but turns him or her into lead if found unworthy to have it. Challenged by the Mighty Shandar, one of the greatest wizards of all time, Jennifer must find the Eye of Zoltar and bring it to him or he will destroy the last two dragons on Earth. With a lead from the psychic Kevin, Jennifer will have to head into the Cambrian Empire, a place so dangerous only half that go in will return. With the young wizard, Perkins, a princess in a maid's body, a young but interesting tour guide, and an obnoxious group of thrill seekers, Jennifer heads off to Cadir Idris in pursuit of the Eye.
