

EVERYTHING EVERYTHING

by Nicola Yoon

Madilyn Vrabel
Keystone Middle School

Grade: 6
Teacher, Donna Knight

Who is your favorite Author and why?
John Green because I enjoy love stories.

What genre do you prefer to read?
Love stories. I like to see people build positive relationships in their lives.

Where do you learn about books you might want to read in the future?
Online.

Where do you like to read best?
Outside because the fresh air helps me think about what I am reading.

When is your favorite time of the day to read and why??
Early in the morning while I am wide awake.

Madiline has a disease called SCID. This disease causes Madiline to constantly be in her home that is very sterilized. She believes that it is like living in a bubble. This disease prevents Madiline from living a normal teenage life.

Madiline finally learns to accept that she would never lead a normal life, let alone leave the safety of her own home, but then she lays eyes on her new neighbor, Olly, and everything changes. Olly and Madiline communicate through instant messages and emails, but that isn't enough for her. Madiline finally asks her in-home nurse, Carla, if Olly could come visit. Carla is reluctant to say yes, but she agrees to let Madiline see Olly. Olly and Madiline were meant to be just friends but their friendship escalates.

Will Madiline and Olly continue to be friends? A secret in Madiline's life could change everything.
